PROFESSIONAL SUMMARY

I spent the past 6 months in training as a **JAVA Full Stack Developer** with a passion for developing scalable web applications. I am looking for an entry-level full-stack developer position in an organization to grow my skills and provide a positive return on their investment. Within these 6 months, I learned Java, Spring Boot and front-end technologies such as HTML, CSS, JavaScript and developed problem-solving skills. I am currently a GIS Engineer with 3 years of experience in OSP Design and Drafting. I am an enthusiastic, self-motivated person who is always willing to learn new skills. I am also a friendly and helpful person with a good sense of humour. I am able to work in a team as well as using my own initiative. Experienced in thoroughly reviewing work, strategies, and processes to ensure quality results.
